2 MANAGING EXPENDITURE – SCHEME OF VIREMENT

Key Controls

2.1 Key controls for the scheme of virement are :

(a) it is administered by the Section 151 Officer within guidelines set by the full Council. Any variation from this scheme requires the approval of the full Council.

(b) the overall budget is agreed by the Cabinet Executive and approved by the full Council. Budget holders are therefore authorised to incur expenditure in accordance with the estimates that make up the budget. The rules below cover virement; that is, switching resources between approved estimates or heads of expenditure. For the purpose of this scheme, a budget head is considered to be a line in the approved estimates report or, as a minimum, at an equivalent level to the standard service sub-division as defined by CIPFA's Service Expenditure Analysis, i.e. employees, premises etc.

2.2 Virement does not create additional overall budget liability. Budget holders are expected to exercise their discretion in managing their budgets responsibly and prudently. For example, they should aim to avoid supporting recurring expenditure from one-off sources of savings or additional income, or creating future commitments, including full-year effects of decisions made part way through a year, for which they have not identified future resources. Budget holders must plan to fund such commitments from within their own budgets.

Responsibilities of the Section 151 Officer

2.3 To prepare jointly with the relevant budget holder a report to the Cabinet Executive where a virement between services and exceeding £20,000 is proposed, and to report to the Cabinet Executive on the overall amounts vired under this scheme from time to time.
