

House in Multiple Occupation Public Register

We have a duty under the Housing Act 2004 to maintain a public register of all HMO Licences. The table give details such as the landlord's name and address, the person or company managing the accommodation and the maximum number of people allowed in the house. We update the information regularly. However, there may be more recent data available. Do contact us for the latest information in your area.

Complaints

If you think that a property is being operated as an HMO and think it should be licensed please contact us.
