Policy 1:		
MM.Pol1.1	Page 27 / Policy 1 / Paragraph 1	“..... Some 8,395 <u>A minimum of 8,740</u> houses will be developed in the District between 2006 and 2029, of which, at least 5,520 <u>5,750</u> houses will be provided within and adjoining the PUA”.
MM.Pol1.2	Page 27 / Policy 1 / Paragraph 1	“.....houses will be provided within and adjoining the PUA. <u>A minimum of 68 hectares of employment land will be provided in the District, of which, at least 57 hectares will be provided within and adjoining the PUA.</u> ”

MM.Pol1.6	Page 27 / Policy 1 / Paragraph 4	“.....encouragement will be given to prioritising the use of Previously Developed Land.....”
MM.Pol1.7	Page 27 / Policy 1 / Paragraph 5	In order to ensure the most sustainable pattern of development, the Council will resist housing and other developments which undermine the policy of ‘Urban Concentration’.
MM.Pol1.8	Page 28 / Paragraph 7.1.3 / Supporting text to Policy 1	“.....adjoining the PUA. This This policy broadly reflects the annual requirements (380 per year) and broad distribution of housing identified in the RSS. However, it is based on locally derived housing requirements identified through the ‘Leicester and Leicestershire Housing Requirements Project’ (GL Hearn 2011) assuming an appropriate share of the Leicester and Leicestershire Housing Market Area’s employment growth. The policy also includes.....”
MM.Pol1.9	Page 29 / Paragraph 7.1.7 / Supporting text to Policy 1	The above policy will be used to ensure that development is delivered in accordance with Council’s Vision and Strategy by focussing development towards the PUA. This policy approach seeks to further the policy of urban concentration and prevent excessive development in the non-PUA. <u>The distribution of development will be managed by identifying suitable sites and development limits to settlements through a ‘Local Plan - Allocations, Designations and Development Management Policies Development Plan Document’, and monitoring of development proposals submitted through the development management process.</u> Accordingly, proposals for residential development that would exceed the overall housing target for the non-PUA (2006 – 2029) in the housing trajectory (Appendix F) will not normally be released to ensure development is delivered in the most sustainable locations.

Policy 2: Design of New Development		
MM.Pol2.1	Page 31 / Policy 2 / Paragraph 8	Delete final paragraph of the Policy and replace with: <u>The Council will use Building for Life 12 (BfL12) as a tool to encourage high quality design across all new housing developments in the District. Where the design of a new development is not considered of high enough quality, the Council will seek appropriate improvements.</u>
MM.Pol2.2	Page 32 / Paragraphs 7.2.7 and 7.2.8 / Supporting text to Policy 2	Amend the paragraphs in the supporting text as follows: Para 7.2.7 <u>BfL12 (September 2012) Building for Life (BfL) is the national standard for well designed homes and neighbourhoods, and it is managed published by a partnership of Cabe at the Design Council GABE, Design for Homes and the Home Builders Federation and Design for Homes. It provides a list of criteria from which an objective assessment of architectural and urban design quality in housing can be made guidance and includes a number of questions relating to the creation of good places to live with the aim of stimulating conversation to achieve improved design quality.</u> Para 7.2.8 The requirement for large new developments (10 dwellings or more) to meet the 'silver' standard against the BfL criteria is important in enabling the Council <u>Developers will be expected to work with local communities, the Local Planning Authority and other key stakeholders to achieve the highest quality design outcomes. The Council considers it important to achieve as many 'greens' as possible and to avoid 'reds', in the context of the BfL12 guidance, and seek to achieve the maximum number of sites with Building for Life Diamond status (the achievement of 12 'greens') in order</u>

		to raise the quality of design quality around throughout the District.

Implementation of the above requirements will take into account the latest evidence on affordable housing needs, through the Strategic Housing Market Assessment or other evidence of need;</u> "

Other than in exceptional circumstances, no single B1 (a) office will be allowed if it creates a single office ‘floorplate’ exceeding 1,000 square metres (net) in area, or is capable of amalgamation to create units of 1,000 square metres (net).</p>

The Masterplan <u>and transportation strategy</u> will be prepared in consultation with the Local Planning Authority and key stakeholders. No development shall commence on the land until detailed design coding has been completed to the satisfaction of the LPA. Subsequent development shall be in accordance with the Masterplan, <u>transportation strategy</u> and agreed design codes”.</p>
MM.Pol4.3	Page 40 / Policy 4 / Paragraph 6	<p>Opportunities to provide a link road from the Warrens Business Park to Leicester Lane, Enderby should be explored by the applicant in association with the Local Planning and Highway Authority if it is proven using robust and independent evidence that this approach results in demonstrable benefits to the transport network and local communities. The Council will explore the opportunity to provide a link road in conjunction with the development of the SES and will discuss the potential for such a link with the developers and Leicestershire County Council.</u>						
Policy 5: Housing distribution								
MM.Pol5.1	Page 41 / Policy 5 / Paragraph 1	In order to focus new development in the most appropriate locations, the Council will seek to distribute housing by settlement in accordance with the table below. MM.Pol5.16	Page 48 / Paragraph 7.5.19 / Supporting text to policy 5	...The 320 340 houses referred to in the policy broadly reflects the number of completions since 2006 and current commitments, and is a reflection that the District Council does not wish to see further growth beyond this.
MM.Pol5.17	Page 48 / Paragraph 7.5.20 / Supporting text to Policy 5	...The SHLAA indicated significant potential for residential development in the long term, however, owing to policy constraints, and limited services and facilities within the settlement, some 150 houses are proposed. More than half of these already benefit from planning permission or have been completed.
MM.Pol5.18	Page 48-49 / Paragraph 7.5.21 / Supporting text to Policy 5	...However, whilst the village has good public transport access to key employment areas / higher order services, it has only a basic level of employment, services and facilities. The 140 houses referred to in the policy reflects the number of completions since 2006 and current commitments and is a reflection that the District Council does not wish to see further growth in Huncote above this.
MM.Pol5.19	Page 49 / Paragraph 7.5.23 / Supporting text to Policy 5	...Whilst development opportunities are limited, there are significant local concerns regarding the falling school role and closure of the Primary School. Some small scale growth (50 houses) is proposed that could help to support local services without compromising strategic policy or environmental constraints.
MM.Pol5.20	Page 49-50 / Paragraphs 7.5.25 - 7.5.26 / Supporting text to Policy 5	Sapcote has a significant number of planning commitments (<u>including land at The Limes</u>). (mainly at the Limes, a proposed retirement village of some 200+ homes which offers accommodation to people over 55 years old). However, whilst these homes are currently counted towards the overall housing commitments in Blaby District, they offer 'specialist' accommodation to a wider

		<p>area than just Sapcote, and as such have been considered independently of the overall housing requirements for the village. If the retirement village is not delivered, the Council will need to consider how it delivers the residual housing numbers in the context of its wider development strategy. 7.5.26 The SHLAA indicated significant potential for residential development in the long term. However, Sapcote has a given the limited range of employment opportunities, services and facilities and infrequent public transport, it is not proposed to allow for growth beyond existing completions and commitments.</p>
Policy 6: Employment		
MM.Pol6.1	Pages 50-51 / Policy 6 / Paragraph 2	<p>The Council will seek to enable delivery of sufficient employment land and premises to meet the needs identified in the Council's Employment Land and Premises study refresh 2011 and contribute towards meeting the Strategic Employment needs identified in the Leicester and Leicestershire Strategic Employment Land Study 2008 (and 2011 refresh). Policy 7: Affordable Housing		
MM.Pol7.1	Page 54 / Policy 7 / Paragraph 1	All development sites containing 15 or more dwellings within Blaby District will be required to contribute towards meeting affordable housing needs.
MM.Pol7.2	Page 54 / Policy 7 / Bullet point a)	The Council will seek to secure a minimum of 30% of the total number of dwellings within the proposed SUE as Affordable Housing. On all other developments of 15 or more dwellings a minimum of 25% of the total number of dwellings will be affordable. <u>The Council will seek to secure a minimum of 25% of the total number of dwellings as affordable housing on all developments of 15 or more dwellings.</u>
MM.Pol7.3	Page 55 / Policy 7 / Bullet point b)	Exceptional circumstances are where a location and/or scheme are not suitable for on-site provision, due to for example site constraints or where there is already a high proportion of affordable housing in an area and a demonstrable surplus of affordable housing exists.
MM.Pol7.4	Page 56 / Paragraph 7.7.5 / Supporting text to Policy 7	The affordable housing target for the District is 1,960 2,105 between 2006 and 2029, 1,275 of which will be delivered within the SUE. The target represents a minimum number of affordable houses to be provided and has been derived by assuming that 25% 30% of housing in the SUE will be affordable, and that 80% of the balance outside of the SUE (based on historic completions) will qualify to provide 25% affordable housing. Accordingly the minimum target is lower than the overall affordable housing need in the District.
MM.Pol7.5	Page 56 / Paragraph 7.7.7 / Supporting text to Policy 7	The Council will monitor affordable housing delivery and housing market conditions. Should the former fall below what is required to meet the affordable housing target and/or the latter change significantly from those tested in the Viability Study Update (November 2011), the Council will consider lowering the threshold for affordable housing and/or reviewing the percentage target.
Policy 8: Mix of Housing		
MM.Pol8.1	Paragraph 57, Policy 8	Residential proposals for developments of 10 or more dwellings should

	/ Paragraph 1	provide an appropriate mix of housing type (house, flat, bungalow etc); tenure (owner-occupied, rented, intermediate) and size (bedroom numbers) to meet the needs of existing and future households in the District, taking into account the latest Strategic Housing Market Assessment and other evidence of local need.															
MM.Pol8.2	Page 58 / Paragraph 7.8.3 / Supporting text to Policy 8	On this basis, the shape of the future stock <u>(including existing stock)</u> to meet this need in the District would be:

Policy 9: Accommodation for Gypsies and Travellers																	
MM.Pol9.1	Page 60 / Policy 9 / Paragraphs 1 - 2	To ensure that Gypsy Gypsies and Travellers have access to suitable accommodation, the following minimum provision will be made between 2006 <u>2012</u> and 2016 <u>2029</u> : <table border="1" data-bbox="920 911 2045 1289"> <thead> <tr> <th></th> <th><u>2012 - 2017</u></th> <th><u>2017- 2022</u></th> <th><u>2022 - 2027</u></th> <th><u>1st April 2027 – 31st March 2029</u></th> </tr> </thead> <tbody> <tr> <td><u>Permanent Residential Pitches</u></td> <td><u>20</u></td> <td><u>23</u></td> <td><u>26</u></td> <td><u>12</u></td> </tr> <tr> <td><u>Plots for Travelling Showpeople</u></td> <td><u>1</u></td> <td><u>1</u></td> <td><u>1</u></td> <td><u>1</u></td> </tr> </tbody> </table>		<u>2012 - 2017</u>	<u>2017- 2022</u>	<u>2022 - 2027</u>	<u>1st April 2027 – 31st March 2029</u>	<u>Permanent Residential Pitches</u>	<u>20</u>	<u>23</u>	<u>26</u>	<u>12</u>	<u>Plots for Travelling Showpeople</u>	<u>1</u>	<u>1</u>	<u>1</u>	<u>1</u>

For travelling showpeople a compound growth rate of 1.5% per annum is assumed. A Gypsy and Traveller Accommodation Needs Assessment will need to be undertaken to confirm the need beyond 2016.</p>
MM.Pol9.2	Page 60 / Policy 9 / Paragraph 3	<p>Planning permission for <u>Sites for new and extensions to existing</u> Gypsy and Traveller sites <u>should</u> will be and planning permission will be granted where there is an identified local need for accommodation, providing the site meets all of the following requirements:</p>

Sensitive landscaping and screening will be required to ameliorate any adverse visual impacts. New development should be in accordance with the 'Designing Gypsy & Traveller Sites, Good Practice Guide';</p>

MM.Pol9.4	Page 60 / Policy 9 / Final paragraph	<p>Delete final paragraph and insert as below:</p> <p><u>The above criteria will be used to guide land supply allocations and to provide a basis for decisions on planning applications.</u></p> <p>Notwithstanding the existence of a large concentration of Gypsy and Traveller accommodation within the District, future development of Gypsy and Traveller sites (where required) will be on a larger number of small sites, as opposed to a small number of larger sites.</p>

The targets are reflected in the above policy and are a minimum requirement. However, beyond 2012 the EMRP requires that GTAAs are updated to provide evidence to inform Local Plans. An ongoing increase of 3% compound growth per year for household formation beyond 2012 should be assumed, with a growth rate of 1.5% for Travelling Showpeople.</u></p> <p><u>The GTAA is currently being ‘refreshed’ to ensure that the evidence of need remains up-to-date as required by National and Regional policy. The Interim Report for Blaby District Council (September 2012) provides a refreshed assessment of the need for pitches for Gypsies and Travellers, and plots for Travelling Showpeople by applying the assumed growth rates above to the end of the plan period. The pitch and plot requirements in Policy 9 reflect the findings of this report.</u></p>

MM.Pol9.6	Page 61 / Paragraph 7.9.3 / Supporting text to Policy 9	<p>Notwithstanding the lack of provision (since 2006) of plots for Showpeople families, the minimum provision figures have been exceeded significantly for both permanent pitches and transit caravan capacity. Whilst sufficient sites have been provided to meet the identified need in the GTAA, it is recognised that this is a minimum. Accordingly, further p <u>Proposals for permanent and transit Gypsy and Traveller pitches or plots for Travelling Showpeople</u> will be supported within the District where the proposal meets the criteria in Policy 9, <u>taking into account other material considerations</u>, and there is an identified local need and local family connection to the District.</p>

Preservation and / or enhancement of the built and historic environment needs to be taken into account both in the Local Development Framework and in development control decisions. Blaby District contains a number of important archaeological sites (including 14 Scheduled Ancient Monuments). In addition there are numerous areas of known archaeological interest and the potential for other unexplored areas to contain important archaeological artefacts.
