

New Lubbethorpe – Phase Three

Outline & Related Non-Residential Planning Applications

This section lists the Outline planning application and each subsequent related non-residential application for phase three of the New Lubbethorpe development. The applications are separated by application type and are listed in date order.

To see all related documents listed in this section please visit the [Blaby District Council Planning Portal](#) and enter the planning reference number in the Search bar.

Definitions of Application Types

Outline (OX)

Applications for outline planning permission seek to establish whether the principle of the proposed development would be acceptable to the local planning authority. This type of planning application allows fewer details about the proposal to be submitted. Those details would be the subject of a later application to approve the reserved matters. The Lubbesthorpe Outline planning permission approved the principle of the development with access details only.

Reserved Matters (RM)

Where outline permission has been granted, this further application seeks approval for the outstanding reserved matters, i.e. the information excluded from the initial outline planning application. This can include details of landscaping, layout, scale, appearance and accesses (where appropriate) of the development.

Please note, the **residential** reserved matters (and their associated applications) for Lubbesthorpe are listed by housebuilder and parcel number under a separate section.

Variation of Condition (VOC)

This type of application is for the removal of, or variation of the wording of a condition/s attached to a previous planning permission.

Discharge of Condition (DOC)

This type of application is for the approval (discharge) of details previously required by condition/s attached to a previous planning permission.

Application for Non-Material Amendments (NMAT)

Following a grant of planning permission, it may be necessary to make amendments to the permission. This type of application is appropriate where such changes are non-material, have minimal impact and do not change the nature of the previous permission.

Full Applications (FUL)

These applications sit outside of the Outline application. They are full planning applications seeking permission for development (in association with New Lubbesthorpe) which was not envisaged by the Outline application at that time.

Applications

Outline

Reference Number: 11/0100/1/OX
