Infrastructure Funding Statement 2022/23

Infrastructure Funding Statement 2022/23

Introduction

Under the Community Infrastructure Levy (Amendment) (England) (No.2) Regulations 2019, every authority has a duty to prepare and publish at least annually an Infrastructure Funding Statement if they issue a Community Infrastructure Levy (CIL) notice or receive money or in-kind works from a Section 106 agreement. This Statement therefore provides a summary of financial developer contributions the District Council has secured, received and spent from S106 Legal Agreements during the financial period of 1st April 2022 to 31st March 2023.

Section 106 Agreements (S106)

A Section 106 (S106) Agreement is a legal contract of obligations entered into under Section 106 of the Town and Country Planning Act 1990 (as amended) by a person with an interest in the land such as a developer and/or landowner and the local planning authority.

Planning obligations assist in mitigating the impact of unacceptable development to make it acceptable in planning terms. Planning obligations may only constitute a reason for granting planning permission if they meet the tests that they are necessary to make the development acceptable in planning terms. They must be:

- Necessary to make the development acceptable in planning terms;
- Directly related to the development; and
- Fairly and reasonably related in scale and kind to the development.

These tests are set out as statutory tests in regulation 122 (as amended by the 2011 and 2019 Regulations) and as policy tests in the National Planning Policy Framework.

Community Infrastructure Levy (CIL)

The Community Infrastructure Levy (CIL) is a planning charge, introduced by the Planning Act 2008, as a tool for local authorities in England and Wales to help deliver infrastructure to support the development of their area. It came into force on 6 April 2010 through the Community Infrastructure Levy Regulations 2010. Blaby District Council are not currently a CIL charging authority.

Blaby District Council Policies

The District Council has an adopted Planning Obligations and Developer Contributions Supplementary Planning Document (SPD), 2nd February 2010. The document conforms to the Blaby District Council Local Plan (Core Strategy) Development Plan Document adopted on 21 February 2013 and the Blaby District Council Delivery Development Plan Document (DPD) adopted on 4 February 2019.

The SPD outlines the District Council's strategy for securing relevant developer contributions in relation to new development and is a material consideration when assessing planning applications. These include and not limited to financial contributions towards infrastructure in the District for improvements of public open space, sport and recreation facilities, the provision of affordable housing, flooding alleviation and Healthcare and Police Facilities.

Leicestershire County Council

Leicestershire County Council enter into S106 agreements with Blaby District Council and other parties. Their Planning Obligations Policy dated 10 July 2019 sets out the County Council's role, requirements and approach to the type and level of infrastructure they seek through planning obligations within Leicestershire. Obligations commonly sought by Leicestershire County Council include schools, roads and transportation, social care, libraries and waste management facilities.

Leicestershire County Council obligations are not included in the District Council's statement, as the County Council are required to produce their own Annual Infrastructure Funding Statement relating to obligations they have secured through S106 Agreements.

Annual Infrastructure Funding Statement

The Infrastructure Funding Statement will be updated annually and published on the Council's website, allowing the public and other interested parties access to information on where S106 contributions have been secured, received and spent within the District each financial year.

The IFS also comprises of three Comma Separated Values (CSV) files indicating transactions for all S106 agreements where funds have been secured, received and spent during this financial year, these full CSV reports can be viewed on the Council's website, however, the reports do not include information on infrastructure that has been delivered on site.

CSV1 Developer Agreements

Overview of all S106 legal agreements that secure contributions from a development for infrastructure or affordable housing within Blaby District

CSV2 Developer Agreement Contributions

Detail of the amount and purpose of each obligation secured within S106 Legal Agreements

CSV3 Developer Agreement Transactions

The status of the contribution showing transaction detail to include 'secured', 'received', 'allocated', 'transferred', 'spent' and 'returned' sums

The following tables provide a summary of the information contained within the full CSV files and have been compiled in collaboration with internal services at the Council.

S106 Financial Contributions

The following S106 contributions have been secured through developments, these will be paid and delivered in future years if the permission is implemented and on the payment trigger being achieved.
